Information and Instructions

The Fremont Union High School District recently transitioned to a new student information system, Infinite Campus. One of the important features of this web-based system is the Campus Portal, where parents/guardians can access information about their student. The District is excited about the potential that the Campus Portal provides for keeping parents informed about their students’ academic progress and for supporting increased communication between families and the school.

The following information available through the Campus Portal: household contact information, attendance, schedule, report cards, and immunization records. If you notice incorrect information, please email: chs_onlinehelp@fuhsd.org.

To obtain a Personal Activation Key and instructions for creating a login for the Campus Portal, please email:

chs_onlinehelp@fuhsd.org.

The Campus Portal does not take the place of School Loop, but provides another source of information for you to support your student’s academic progress.
